

Active Combiner COM 24AC

The RF active combiner has module amplify which is specially designed for CATV headend. It has high isolation between channels.

24 Way Active Combiner COM 24AC

Specifications

Items	Specifications
Bandwidth	45-860MHz
Gain	3±1dB
Insertion Loss	21±2dB
Input / Output Return Loss	≥16dB
Max. RF Output Level	100dBuv
Noise Figure	7.5dB (typical)
Output Impedance	75Ω
Isolation between channels	≥30dB
Power Supply	AC100-265V
Power Consumption	7W
